LS Canine Prescription Highlights

Key benefits:

- o Moderately reduced dietary protein
- o Increased Vitamin E to reduce damage to the liver based on chronic degenerative process.
- o Enhanced Zinc levels discouraging absorption of divalent cations
- o Restricted Copper levels
- o High L-Carnitine and L-Arginine levels
- o Enhanced Pyridoxine levels (benefits: chelating with D-Penicillamine)
- o Added Botanicals and Extracts

* Not recognized as essential nutrient by the AAFCO Dog Food Nutrient Profiles.
