Notes:

Dog foods substantiated for nutritional adequacy by reference to the AAFCO Dog Nutrient Profiles for a designated life stage(s) must be formulated to contain at least the minimum concentrations of nutrients specified in the profiles, and, for some nutrients, not more than any maximum concentration listed for that specific nutrient in the profiles as shown above.

* Not recognized as essential nutrient by the AAFCO Dog Food Nutrient Profiles.

** ND-Not Determined. While a minimum requirement has not been determined, sufficient amounts of omega-3 fatty acids are necessary to meet maximum omega-6:omega-3 fatty acid ratio
